

Tomes Commercial Group

THE CEO'S MESSAGE

In the distant past , Iranian physicians used vegetables to treat various ailments . At one time , Iran was the main route for international trade . Our strategy is to improve the quality and quantity of international trade in Iran and the world by using the production , trade and especially the geographical location of Iran in the region and the world . Our goal is to serve producers , importers and exporters in the development of international trade , as well as to help improve and prosper the business environment in the field of vegetable in Iran , the region and the world .

Our concern is to understand the needs of customers and try to provide optimal services to them using the latest technologies in the world. Based on this, we put ourselves in the shoes of our customers so that we can see them from their real point of view and meet their requests in a desirable way. Tomes commercial Group, with the support of knowledge, experience, expert staff, software and hardware infrastructure, has drawn new business horizons in the field of domestic and international trade. In this article, you will get acquainted with the fields of activity, products and records of the collection. We hope that with your satisfaction we will be able to serve you properly. We are proud that you have chosen us. Enjoy your health!

Our business

Consumption of vegetables, because they are rich in nutrients such as vitamins, minerals and enzymes, along with daily activities, brings health and a pleasant feeling. The use of vegetables is very useful for many groups of society, such as climbers and students. Iran is one of the leading countries in the world in terms of onion, potato, cucumber and tomato production . This is due to the very good conditions for growing these crops in Iran. Climate change and the four seasons of Iran's climate have caused Iran to have fresh fruits and nuts even in winter. Therefore, the supply of vegetables is done in all seasons and in abundance in Iran.

According to available statistics, Iran's vegetables exports reach more than \$ 1 billion a year, and about 50 countries around the world buy Iranian vegetables. Iranian vegetables are exported to most parts of the world, including Europe, Australia, Vietnam, Russia, China, Iraq, the United Arab Emirates, Japan, Brazil, Canada and other countries. Based on the high capacity of fruit and vegetable production in Iran and benefiting from the numerous suppliers covered by it with production capacities between 400 to 700 tons of vegetables per day, Tomes commercial group is able to produce in high tonnage and in the required quantity and quality. Provide customers with their requested goods. Since the production of vegetable in the factories covered by the Behfruit complex is done by automatic machines, so in terms of quality and health, as well as the uniformity of the products, it has an excellent degree. Their shelf life depends on the temperature and humidity of the environment. Although inside the refrigerator, the life of vegetables will be longer, but at room temperature its shelf life will be slightly shorter.

Mission

Our mission is primarily to meet the needs of our customers around the world in the field of vegetables and to satisfy them completely . In this way by supporting farmers and gardeners on the one hand , as well as managing the quality and quantity of final products , on the other hand , we are trying to provide the desired conditions for customers in the production and consumption chain . We strive that our customers taste the attractive taste of healthy and delicious vegetables products and thus encourage them to use vegetables as a better and more useful alternative instead of harmful snacks for their health where it is not possible for them to access fresh vegetables Consumption.

Vision

Our brand with the best - selling brand is based on the determination to gain a significant share of international trade in the field of vegetables , relying on professionalism and professional commitment , and by developing and diversifying products and continuously improving processes and Providing up - to - date services to its customers will satisfy them as much as possible.

▲ ABOUT US

We provide a wide product range with good quality and competitive prices due to our strong business network including producers. In every step of your import process, we do our best to help and manage things, so you do not need to worry about anything. We are working together with our partners

Tomes as a company that already exported fresh vegetables to a lot of countries, it is a company that stands out from the rest with its continuous supplier brand recognition. Our team while not hesitating to give every possible support to our customers, not only does this in terms of supplying but also logistically. Our aim is to keep the product fresh while providing the best price and fastest travel with our years of logistic and shipping experience.

We are not holding back from getting modern applications that fits the world standards in order to satisfy you, customers, that are the most precious part of our company. Even the newest technologies comes to life in a very short term with our technical team that performs with a mentality that is open to new things. We are making an effort in order for our company which does all these quality implementations, to reach a wider audience.

ABOUT US

Tomes brand aimed to provide its customers, which demand wholesale vegetables, with best quality products thanks to its wide range of goods. It has a team that supervise the products that are going to be exported through cultivation to packaging while dealing with them one by one.

We are in a state in which we have nearly reinvented quality standard of the sector we are dealing with in our country. While many companies spent efforts to stand up to the standards that we set, our company is already designing new things and differences for future. In this case, it is a proud thing that all these implementations and service that are admired to be present within the establishment that standardized them.

Tomes family does not even consider offering unhealthy and second rate products to be sold and even if it is not the season for fresh vegetable it plans to supply with vegetables that are preserved in cold storage depots.

About us

ABOUT US

Our company, Tomes, that operates nonstop with a style of relentlessness and innovativeness, makes concession about the mentality of respectfulness and morality. We are expanding our services so that we can make a habit of seeing things from opposite side's point of view and our services can be built with durable foundations. We are making an effort to keep our experienced workers sharp and keep all of our employees safe so that we can offer constructive and permanent solutions in the sector. We frequently mention customer oriented work principle, environment friendliness, socially productiveness and our desire to be the top among the trustworthy brands along with our love for society among our values.
